Endowment EIN Change and Funds Transfer Policy

Purpose
Endowments are linked to an organization or team through an Employer Identification Number (EIN), also known as a federal tax identification number. This linkage does not infer ownership or any other rights to the endowment or the funds credited to the endowment. EIN is a tracking mechanism employed by MidwayUSA Foundation to link an endowment to the one organization or team permitted to apply for and receive grant funding from that endowment.

Occasionally, organizations and teams with an endowment will want to change their EIN for various reasons. Additionally, organizations and teams may also request to transfer all or a portion of the endowment balance to another endowment linked to a different EIN. EIN Changes and Funds Transfer requests are taken seriously because they modify, or convey access to grant funding and enable some influence on the endowment.

MidwayUSA Foundation maintains ownership and control of all endowments, and, therefore, has the right to refuse any request to modify or transfer an endowment balance. The Foundation will vet and consider written endowment modification requests that comply with all Foundation requirements. Endowment EIN Change and Funds Transfer form(s) will be made available to collect enough pertinent information to facilitate adequate due diligence in the vetting process.
